Are They Military Experts?

Five Senators made a tour of the global war zones, and came home to report to the Senate. The Senate went into executive session, which is supposed to be secret. However, as soon as the session closed, the public was informed as to what the Senators said, and the criticism which they had to offer regarding the whole war situation. Are these five Senators to be regarded as military experts, or are they just five more armchair strategists, who know little more about the conduct of the war than any other citizen? This point of view should be cleared up, before their recommendations are taken seriously.

No doubt any citizen could visit the battle fields and see plenty of waste going on every day. War is waste, and no one can expect to see anything but waste wherever there is fighting, regardless of any economy which may be used by military officers at home. Whatever criticism that may be directed at our war efforts, under the direction of military men, may likewise be directed toward Washington, D. C., where the Senate has something to say about the situation.

The most perturbing part of the report deals with the fact that Uncle Sam is still considered the big cheerful Santa Claus of the world. According to these Senators, Europe looks upon the Atlantic Charter as a guarantee that the United States will rebuild the destruction of Europe after the war. Naturally this would be cheaper for us than to pay for an invasion of our country. But the insinuation is that the President made promises to Churchill which would cost this nation billions of dollars for rehabilitation of Europe in addition to our own rehabilitation.

There is considerable criticism of the handling of lend-lease goods. This is Harry Hopkins' job, and Harry has been known as the freehand man in Washington. He has given away billions of dollars under the Roosevelt administration both in war and peace. No one in this nation expects that we shall ever be paid for lend-lease war goods. Again, it is cheaper to send products to our Allies than it is to be invaded. The English are being charged with mis-handling lend-lease goods which were shipped from this country. If this is true, there is plenty we can do about it; but if this criticism is merely petty politics, it is bad business.

Since this leak on the so-called executive session of the Senate, it would be better that the entire proceedings be published so that the people could read what these five Senators really said. So much has been published that a little more could not hurt our standing with our Allies.

In these days of high prices, it is good advice to say DON'T SPECULATE. Speculation covers such a wide field that it is hard to define it. The

fellow who buys a used car which he does not need; the fellow who buys land that he cannot economically handle; or pays speculative prices for livestock, which he hopes to sell at a profit; or moves into a residence he cannot afford, simply because his pay check may be a little higher than usual; these are pure speculation. These are abnormal days, with high prices. There is the incentive to buy things which we do not need in hopes that prices will go higher. But common sense should tell us that prices will go down much faster than they have gone up.

Government Gives Subsidies

The War Food Administration was given \$500,000,000 for subsidies to cover the loss to producers occasioned by "rollback" in some retail food prices. Before the ink is dry on the first \$500,000,000 authorized, Administrator Marvin Jones wants \$500,000,000 more.

Once the "cost of living subsidy" is established, look out for it to be extended, billion by billion. The farmer doesn't want the subsidy because he knows he will be at the mercy of the government to pay him such a handout, under one name or another, as it seems sufficient to keep him going.

The food subsidy is an indirect method of making the government boss of every farm in the United States.

The cost of production, which is based largely on the cost of labor, will always establish the price of a commodity. It is child's play to talk about reducing the cost of a commodity when the cost of production is going up. There isn't enough money in the world to maintain peacetime prices by subsidizing wartime production costs. The people pay, through taxes or prices, and there is more waste via the tax-subsidy route.

The West Texas Chamber of Commerce is asking members whether or not the organization should maintain a bureau in Washington, D. C. Unfortunately, most people will say that this bureau should be established. Unfortunately, it seems necessary to establish such a bureau. The time has come, unfortunately for the nation, when we have a government by pressure groups. The group which refuses to put on the pressure is left out. The minorities which are adequately represented are the ones which get favorable legislation. The minorities which fail to provide pressure methods are the ones which remain the "forgotten men." When the war is over and post-war projects are underway, there will be greater need for adequate representation from this section if we expect to get what we want—and no doubt we shall be asking for plenty.

Congress is kicking the administration's tax bill all over Capitol Hill. No doubt the members remember the stern warning of an ardent New Dealer that all surplus should be taxed away from the people. Fresh back from their visit among the voters at home, members of Congress must realize what a silly proposal this would be in face of the fact that every line of industry, business, and producer of every description is wearing out his machinery and equipment during the war. All of this machinery and equipment must be replaced after the war. It is the extremely silly business institution which is not laying aside a surplus for replacement purposes. It would be a very unwise thing for Congress to attempt to tax away this surplus. But you understand that we still have New Dealers who are more interested in social reforms than in a speedy victory.

It is good news when we hear that religion is on a new basis in Russia. Millions of Russians are flocking into the churches, and the government is encouraging this movement. Anti-religious publications have been banned. Stalin has proved to be as great a domestic leader to reunite a torn nation as he has proved to be a military leader in driving out the Germans.

A negro sergeant said to a bunch of colored rookies: "From now on when Ah blows dis yere whistle, Ah wants to see a huge cloud o' dust come bolin' outa dem tents an' when dat dust clears away, Ah wants to find two rows of statues."

Texas is threatened with the loss of 200,000,000 cubic feet of gas a day through the construction of a pipeline that will build up the factories of the East and deprive our State of an opportunity for industrial development. Austin is talking against it. Let's have action.

If you visit the Lower Rio Grande Valley, the miracle of its development is right before your eyes—the "before" and "after." You see not only the great groves of grapefruit and orange trees, which produce thousands and thousands of cartloads of fruit a year—but, in many instances, you see just across the road, the "brush country" in its untamed condition: Spanish bayonet, prickly pear, ebony trees, mesquites, vines and thorny bushes so thick as to seem almost impenetrable except to a man swing a machete.

There was another negro sergeant who said, "When I says 'Eyes, right,' Ah wants to hear dem eye-balls click."

The other day as I was in line to pay my lunch check, I noticed on the counter a small stack of chocolate bars—the first ones I had seen in several months. The man ahead of me picked up five but the cashier explained that the limit was one to a customer, so he had to put back four. As a result, four other persons—who had just as much right to enjoy a chocolate bar as that human hog did—were able to buy one.

And yet there are some people, including one or two in public office, who insist that rationing is unnecessary.

Tom Foster, widely known Texas newspaperman, now in the Seabees is happy over the fact that the 99th U. S. Naval Construction Battalion of which he is a member has been christened by Governor Stevenson as the "Lone Star Battalion." One-fifth of its members are from Texas. Commander Richard R. Cook said that, while he is a loyal West Virginian and the battalion has men from every state, "we are proud to be signally honored by such a great commonwealth."

Army Officer Talks on Home Front at Rotary Luncheon

Lieut. Colonel Alfred Petsch was the speaker at the Rotary Club luncheon Tuesday. Col. Petsch has served in the Texas legislature for 16 years. He was a veteran of World War I. He was introduced by Clyde Warwick, who was in charge of the program.

Col. Petsch stated that America will win the war. The efficiency of our nation cannot be whipped, but the time of victory will depend on what price we are willing to pay.

The four freedoms are not enough. The secret of America's greatness is the right of private ownership. We used to take private ownership of property for granted, but this is now being challenged. If this right is wiped out, then shall be wiped out our great industries, our schools, our churches, and institutions which make our nation great.

Three danger signs are in our national life: 1. Labor unions are becoming more powerful than our government; 2. People are losing confidence in our lawmakers, and thereby create fertile grounds for a dictator; 3. Promises of politicians to give the people comforts which they do not work to accumulate.

The greatest sacrifice of the war is being made by the men on our battle fronts. On the home front, all must make sacrifices. But debts are being piled up, without effort to check public spending. A nation is a group of small communities. No community can continue to exist by piling up debts without making an effort to pay them off.

The war is affording tremendous prosperity for large classes of our citizens. Morals are suspended for the duration, and we are threatened in the loss of the liberty which we so greatly cherish.

Col. Petsch described the unwritten law of only two terms for any President as a very wise safeguard for our Democracy. Government is human. With each change in government the new leaders are given a chance to find out what the people want. "There should be a constitutional amendment to limit the term of President to two 4 year terms, or still better, one 6-year term," stated the speaker.

The great middle class of America was praised by Col. Petsch. It is the foundation of our government. Citizens were urged to make their wants known to our public officials. We have a great obligation to perform as crusaders in order to keep America free. America is a great nation, and this great middle class will keep the nation great, concluded the speaker.

National Newspaper Week was recognized when Clyde Warwick displayed the trophies which had been won during 1942 by The Canyon News.

Visitors were: J. Horace Griggs, E. Kancher, N. A. Murphy, all of Amarillo; John Denman of Lubbock; C. M. Teague of Dalhart; Rev. J. T. Barbee of Clovis; N. J. Newman, Mrs. T. V. Reeves, Mrs. Clyde Warwick, all of Canyon.

Mr. and Mrs. N. E. McIntire and Mrs. J. P. Whittington and daughter of Amarillo visited in Tulsa Sunday with Mrs. G. C. Hutchinson and Mrs. W. B. Anthony.

Mrs. Augusta Hancock has returned from California where she spent the summer.

EDGETOWN H. D. CLUB MET WITH MRS. E. C. PENICK

The Edgetown H. D. Club met at the home of Mrs. E. C. Penick Friday afternoon. A demonstration on fruit conservation was given by Miss Wilroy.

Home made ice cream and cookies were served to the following: Visitors, Mrs. W. S. Wagy, Mrs. Barnard, Mrs. G. H. Prichard; members, Mrs. L. L. Gore, Mrs. O. M. Solomon, Miss Mable Solomon, Mrs. T. T. Fain, Mrs. J. N. Breittling, Mrs. P. L. Walters, Mrs. Penick, and Miss Wilroy.

The next meeting will be at 2:30 p. m. October 22 in the home of Mrs. L. L. Gore.

PRESBYTERIAN CHURCH

For the next three Sunday mornings at the Presbyterian Church worship hour, doctrines accepted at the Westminster Assembly will be discussed. This assembly was summoned by Parliament to meet in Westminster Abbey, July 1, 1643, to consult and advise concerning matters of religion; and since most Protestant churches accept this Confession of Faith, a full interpretation is being made. The worship hour is at eleven o'clock.

Each Sunday night for the last two weeks and the following four weeks, a covered dish church supper is being served at 6:45 o'clock. After the supper, seminars on American Unity are given. Group leaders include Mrs. R. P. Jarrett, Jr., pre-school; Mrs. R. A. Neblett, primary; Mrs. Harvey Cash, juniors-intermediates; Miss Margaret Barrett, seniors-young people; and Dr. R. P. Jarrett, Sr., adults. Such books as "We Who Are Americans," "Strangers No Longer," and "Together We Build America" are being studied.

College and air detachment students are invited to be guests of the church at these suppers and vital and timely studies and discussions.

Rev. Robert W. Jones is pastor of the Presbyterian Church.

SINGING CLASS STARTS

A sight singing class was begun the past week at the local Church of Christ. It meets each Wednesday evening at 8:15 p. m. and is taught by the congregation's song director, Olin Huff. Following the music study and song drill is the regular Bible study. All are invited to these services.

Marcus Marcheta Robinson had her tonsils removed Monday. Marcheta is the small daughter of Mr. and Mrs. W. T. Robinson of Phillips. Mr. and Mrs. Robinson and daughter will spend a few days in the home of Mrs. Robinson's parents, Mr. and Mrs. Tom Loller of Happy.

Mrs. Dorothy Marie Adams, who was the former Dorothy Marie Hand, is back at her job with the Plains Chevrolet Company in Amarillo after being with her husband for three weeks, who is stationed in Kansas.

Mr. and Mrs. M. G. Hunt and children of Portales have been spending this week at the parental A. H. Hunt home. School was dismissed for harvest time.

Mrs. J. B. Speer is teaching in the training school, taking the place of Miss Jean Moore. Mrs. Speer has been teaching at Happy, but resigned.

Mrs. M. C. Alexander returned last week from Dalhart where she visited with Mrs. Jim Burrow.

Mary Jo Knox went to Amarillo Monday.

Baptist Meeting To Close Sunday

The revival in progress at the First Baptist Church of Canyon in which Rev. J. T. Barbee of Clovis, New Mexico, is doing the preaching, will close Sunday night. Attendance has increased this week over that of last week. Pastor Roy L. Johnson announces that a baptismal service will be conducted Sunday night.

Two services are being conducted daily at 11:00 a. m. and at 8:15 p. m. Mr. Barbee is a unique preacher and fearlessly delivers his messages from the Bible. Numbers of visitors are enjoying the messages and all are invited.

Been hearing about four-ton bombs? Well, here's one of the 8000-pound cans of TNT being trundled up to a four-motored British Lancaster bomber at an air base in Britain, "O. K." according to the sign, for delivery to the Axis. A look at the girl gives you some idea of how big a blockbuster is.

in connection with telephone orders. The size and weight provisions do not apply to anything ordered through the switchboard, but the frequency of delivery limitation will apply. This is, primarily, for the convenience of persons who are ill, handicapped and otherwise unable to do their shopping.

While the order permits delivery of medicines and medical supplies, a person ordering a prescription from a drug store cannot have the druggist include a carton of cigarettes, a box of candy or a bottle of perfume with the order, unless, in the aggregate, the order would be in the excess of the minimum weight and size limitations and the weekly quota of deliveries in the area has not been exhausted. The reason, it was explained by ODT, is that it would result in unfair practice to stores handling those extra items but not handling medicine.

It was pointed out that, despite all efforts to replenish the nation's rubber supply by the manufacture of synthetic rubber, the rubber situation is acute. Paramount among the reasons for this is the fact that such synthetic tires as are being turned out are, to a large extent, going for military purposes. In addition to the rubber shortage, there is the increasing problem of replacement parts for motor trucks and other vehicles, as well as the vehicles themselves. With the manufacture of commercial vehicles at a standstill, those now operating must be made to last for two, three or maybe four years. The big problem is to keep the nation's equipment in running order for the duration.

FLANK MOVEMENT

Darling, your eyes shine brighter than tracer bullets. When you look at me, incendiary bombs explode within me and my heart feels like the plunger of a machine gun. My head whirls like an A-1; and I gasp as if gassed, as I gaze upon your features, fairer than a flag of truce. The thought of losing you stabs my heart like shrapnel. I'm "holed-up" like a covey in a German concentration camp, by your blitzkrieg of amorous warfare. Darling, marry me and be my draft exemption!—Southwestern.

A young cowboy from an isolated ranch bought an ice cream cone, walked outside to eat it, then carried the cone carefully back to the soda fountain. Handing it to the clerk, he said, "Much obliged for the use of the vase."

Lions Initiated New Members

The sheriff had to be called in to control a near riot at the Tuesday luncheon meeting of the Lions Club. Lions Mitchell Jones and John Gillis had to be forcibly restrained to keep them from doing each other bodily injury but order was finally restored with one casualty, namely, the loss of a coat sleeve by Lion Mitch.

Several new members, Lions Littlefield, Foster, Warren, Black, Renfro, and Neil, promised their hearty cooperation in the War Benefit Drive and by a unanimous standing vote pledged a large amount of the funds for the Benefit.

When the fun had subsided and all was quiet, the new members realized it had all been a part of their welcome into the club, and some who had been ready to resign reconsidered and decided to remain with the club.

Former members of the club, Pat Britain and Wayne Porter were welcomed back during the meeting.

Grade Teachers Sponsor Individual Class Sales

Although the Grade School began its Bond drive only last week, over \$100 worth of Bonds and Stamps have been sold.

Teachers Sponsor Sales

Each teacher is sponsoring the sales for her home-room and the amounts are as follows: Mrs. Andy Walsh, \$39.10; Mrs. John Davis, \$24; Mrs. A. K. Goodman, \$14; Mrs. W. E. Miller, \$1.95; Mrs. Stella Murrell, \$5.80; Mrs. Roscoe Davis, \$4.29; Mrs. T. W. Collins, \$2.20; Mrs. Mitchell Jones, \$7.30; Mrs. L. M. Cousins, \$39.50; Miss Florence McMurray, \$5.15; and Mrs. Houston P. Doughty, \$23.05.

For this drive students are asked to buy all their stamps from their home-room teachers to boost the school to 100%.

Pupils Demand Drive

Miss Elva Fronabarger, principal, stated, "This year the teachers did not need to initiate the Stamp and Bond drive. The children demanded it. I consider that last year's campaign was so successful that we were delighted to repeat it."

Last year the Grade School bought enough bonds to pay for three jeeps and hope to do the same this year.

The school board is again furnishing operating expenses.

A GOOD BEGINNING

What are we going to accomplish this school year? Are we going to set a high goal and strive at all times to reach it?

Life is not worth while if we sit down and let it roll by, waking up in the end empty handed. Let's make the best of the year that lies before us and take advantage of all the opportunities that come our way.

If opportunity does not come, the wise person goes out and makes it. It is the wide-awake person that goes in search of opportunities who gets further along in life.

Boys and girls of Canyon High School, keep always in mind that we, the students of today, will be the leaders of our country tomorrow. Will we know enough and have ample foresight to avoid the blunder made by our fathers after World War I? Let's heartily resolve today to make this the best year of our high school lives. We can't let our country down!

Congress Chooses Four Candidates

The Student Faculty Congress met in its first regular session Tuesday, October 5, with Supt. J. B. Speer presiding. He opened by reading excerpts from the constitution of the Congress to the students present.

The Congress then elected their officers for the coming year. Sandy Oliver was elected secretary, while Kenneth Vaughn was chosen parliamentarian. Customary procedure of the constitution provides that an acting president be appointed pending the nomination and election of permanent officers. Charles Hillier was elected as temporary chairman.

The students then offered their nominees for president of the congress and the two officially nominated.

Ex-Students Desert Olde Alma Mater

Last year's Seniors have scattered to all parts of the nation and are engaged in various types of work.

Seeking education, these have remained here to attend W. T. George Black, Carolyn Black, Billy Ray Boling, Anita Davis, Martha Jean Dowd, Arthur Duntan, Lewis Hales, Martha Hammond, Peggy Harding, Louis Hinder, Georgia Faye Holt, Barbara Michael, Elwyn Morton, Charles Owen, Dana Persons, Andy Walsh, and Pauline Winstead.

Five Choose Other Schools

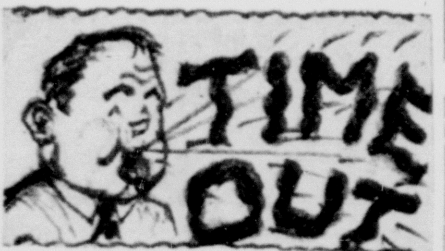

Only three of our students are now attending school out-of-state, while two have found their choice in other parts of Texas. These are: Shirley Harrell, Gulf Port, Mississippi; John James Harter, Berkeley, California; Dick Woods, Berkeley, California; Theresa Blewett, Austin, Texas; and Mattie Garrison, Lubbock, Texas.

Uncle Sam has claimed seven boys from this 1943 graduating class. Clifford Abbott and James Wright are in the Marines, Robert Arent and Billy Baker, Navy; Kenneth Bosley, Medical Corps; Calvin Sanders, Army, and Joe Ziegler, Air Corps.

Three Work At Home

Talmadge Bosley, Gene Cook, Tommy Lou Ford, and Evelyn McClelland are now employed at home. Amarillo is now the home of Frankie Lou Goettsch, while Kansas City has received Willie Marie Babb as a new resident.

Ermin Winningham has the distinction of being the only member of her class to work in a defense plant. She is employed as an overhead welder in a Los Angeles shipyard.

By Lindsey Taylor

This here's something that is amusing and not confusing. The summer has produced many new variations of last year's nicknames. Some of the most distinguished are: Don "Birdlegs" Standley, Bobbie "Bull" Dowd, Johnny "Blubber" Gill, and Charles "Horse" Taylor.

Say, what is this new sport, (that is, for juniors and seniors) of which freshmen and a pants holder-upper seem to be the most important elements. Sorry lads, but just think, we went through the same thing, only the belt line was longer.

Scream Boys!

Oh, lookie at the pretty legs, as Miss Dorothy Strain's Phiz Edders, including 7th, 8th, and 9th graders come outside for some good old baseball; and I must say they're doing quite well.

Look at dem Calves go! It seems that W. T. High has a fair football club this year, and they're ruff and tuff. Well we're backing you even though we are rivals.

inated were Billy Jane Bonifield and Ellen Sanders.

These nominations will be presented to the student body for official election at a later date.

I Want A Texan's Share

This war is a serious proposition. More American boys are being killed now than in any war since the founding of the United States as a nation. It's up to us Texans to do our best to end this massacre as soon as possible. Buy Bonds and Stamps! Buy a Texan's share in Victory!

Classes Organize Welfare Groups

During the past week, classes in the Grade School have been organizing citizenship clubs to study activities which would improve the welfare of the students.

Chosen as officers of the 6-D Club are: president, Donna Erwin; vice-president, Suzanne Owens; secretary, Marion McReynolds.

Leaders of the 5-W Club are: president, Barbara McDougal; vice-president, Stanley Lair; secretary, Walton Byrd.

To guide them in their activities, 4-M chose Raymond Hinder as president; Dwain Currie as vice-president; Louise Walker as secretary. Sponsors of these clubs are: Mrs. John Davis, Mrs. Mitchell Jones, and Miss Florence McMurray, respectively.

Meetings are held on Fridays, when various committees present programs to show ideas on safety, health, character, thrift, good manners. Good citizens for the past week are also chosen on Fridays.

Association Holds Regular Meeting

In the September executive meeting of the Canyon Parent-Teacher's Association, it was voted to hold regular meetings on the second Thursday of each month. The first meeting will therefore be held Thursday, October 14, at four o'clock in the music room of the grade school building.

Mrs. Robert W. Jones will be the speaker of the hour. Her subject will be "Freedom of a Normal Home Life." Everyone is asked to be present.

Pupil Helpers Aid CHS Executives

Because of the shortage of experienced helpers this year, several students have volunteered to devote one or two hours a day to helping Supt. J. B. Speer and Registrar Jewel S. Tabor in their offices.

A senior, Betty Ann Simon, who is acting as secretary to Mr. Speer, devotes three hours a day to office work. Another senior, Vernez Turner, and several lower-classmen, James Guthrie, Billy Ponder, and Billy Jo Wallen have each consented to help one hour a day. At the present time Mrs. Tabor has only one office girl, Kathryn Davenport, who works one and a half hours a day.

Chapter Chooses Bonifield Prexy

Canyon High School Future Homemakers met last Wednesday afternoon and elected Billy Jane Bonifield president of Area I of the Future Homemakers of Texas.

Local officers elected were: president, Betty Ann Miller; vice-president, Mary Alice Campfield; secretary-treasurer, Frances Gooch; reporter, Ellen Root; social chairman, Claudine Foster; scrapbook chairman, Geraldine Small.

Miss Rhita Jean Sullivan is sponsor of the club.

School Practices Fire Prevention

As a part of the fire prevention program started last week, Canyon High School conducted three fire drills Friday, under the direction of Fire Chief Don Standley, who was elected in a recent meeting of the Student Faculty Congress.

Since school has been underway only a short time, and English classes are not yet well organized, no fire prevention themes have been written. They will be composed by three English classes and sent to Austin at some future time.

Howdy kids!

Yep, it's me agin' an' rarin' to go with all the news an' views of our dear ol' Alma Mater.

While roamin' the town last week I shore larned things. Fur instance: Rose Hugg and Cole Thurman had their first dates last week-end. Sum fun, eh Rose?

Kids, brace yourselves, 'cause if what I see is true, Kenneth (Jigger) Vaughn and Johnny Frances Wallen have quite a case up. Well, from their actions in World History, I'd say so.

Calling all cars! Be on the lookout for a starry-eyed girl with a certain sparkler on her third finger, left hand. Yep, Betty Harwood and Gunner's Mate 2nd Class Donny Arent, ex-stude, are engaged! (Confidentially, a certain sailor receives a letter ever single day).

Well, here he goes agin'! Charles SoRelle is on his familiar merry-go-round. The question is, whose horse is in the lead—Shirley Newberry's or Evelyn Elliot's (comely W. T. Freshmen)?

I found a couple more couples out howlin' last week, and I shore am willin' to wager they had a good time. Well, at least Tommy Thompson and Billy Turner, Claudine Foster and Francis Ashley seemed to be.

After last Friday night, the \$64 question can finally be answered. Yep, and it's too bad, boys, Betty Brown is still goin' with Charles Taylor.

Students, I better be a gittin' afore I'm sued for libel, but I'll be seen' you next week—so hang around.

Young Edisons Need Calmer Ambitions

Science students in Canyon High are doing their bit for victory.

In fact the biology class is well on the way towards solving the manpower shortage. Each student has learned the basic materials of which man is made, but, as yet, has not been able to put them together to make a man. They hope to have something definite before the next war, however.

It seems as though the greatest ambition of each of the 14 chemistry students is to make an explosive which will blow something sky-high. Their idea, of course, is to give the Axis the hot foot, not to augment the teacher shortage by placing a bomb under their favorite teacher's chair. You may hear something further of this!

Library Increases Reading Material

For use as additional reference material and reading matter, Supt. J. B. Speer has sent orders for subscriptions to forty-five magazines, covering both vocational and fictional reading.

Homemakers Receive Material

To the Homemaking Department will come Forecast, Good Housekeeping, Hygeia, Mademoiselle, McCall's, Parents, Readers Digest, What's New in Home Economics, and Practical Home Economics.

Boys in the Agriculture Department will use American Hereford Journal, American Farm Youth, American Poultry Journal, Holstein Preshian World, Hoards Dairyman, Poland China World, Sheep and Goat Raiser, Poultry Tribune, Durac News, Sheep Breeder, Capper's Farmer, Jersey Bulletin, and Hog Breeder.

Library Gets Magazines

For the library are American, American Girl, Boy's Life, Glamour, Good Housekeeping, Hygeia, Life, Woman's Home Companion, McCall's, Mademoiselle, New National Geographic Magazine, Newsweek, Popular Science, Popular Mechanics, Reader's Digest, Screen Romances, Nature Magazine, Industrial Arts and Vocational Magazine, Modern Screen, Your Life, Open Road for Boys, Field and Stream, and Aviation.

Students are urged to use and care for these magazines as they would library books.

As soon as possible, new books will be ordered for the library from a list requested by the high school teachers.

Managers Praise Four Candidates

Several Students Receive School Award of Merit

With the campaign for presidency and vice-presidency of the Student-Faculty Congress in the spotlight, students of Canyon High School gathered, Friday, for their first assembly of the year.

Candidates Are Named

Presidential candidates are Billy Jane Bonifield, senior, and Ellen Sanders, junior, while nominees for vice-presidency are Margaret Prichard, senior, and Margaret Lair, junior. Bringing out the good points of the four contestants were the campaign managers: Mollie Nann Ziegler, who discussed Billy Jane in poem form; Margaret Lair, who chose a jury to convict Ellen of being capable of holding the office; Helen Jo Cox, who delivered an extemporaneous speech about Margaret Prichard; and Ellen Sanders, who looked into the past, present, and future of Margaret Lair.

Speer Presents Letters

With the aid of his secretary, Betty Ann Simon, Supt. J. B. Speer awarded sixteen band students and eleven journalism students letters.

The program was begun by the salute to the flag, led by Charles Hillier, temporary president of the Student Congress, and the introduction of the new teachers by Mr. Speer. After the acknowledgment of the teachers, Billy Jane Bonifield and Mrs. Glenn Dowlen led the students in a few well-known songs.

Announcements made by Mr. Speer concluded the program.

Sanders Sponsors Manual Trainers

With Milton Sanders as sponsor, the Manual Training Department has begun its activities with the largest enrollment in several years. Of the thirty-six students only three are girls.

Beginning their studies with the making of broom holders, the first-year students have their projects well underway to completion while the two second-year students are spending their time on a table and a cedar chest.

OPA SETS APPLE CEILING PRICES

Apples for home consumption will sell at a season's national retail average of between 10 and 11 cents a pound. Maximum prices for apples were set recently as one of the first steps in OPA's program to extend control over the prices of fresh fruits and vegetables to keep down the cost of living. As in the case of eggs, prices will vary by the month to reflect storage and other charges.

ARMY-NAVY TEST FOR STUDENTS

The next qualifying test for the army specialized training program and the navy college program will be given in high schools and colleges. Tuesday, November 9, according to the War Department. The test is open to male graduates and high school seniors in their last semester who will reach their seventeenth birthday and not their twenty-second birthday by March 1, 1944. The test will provide an opportunity for these men to qualify for college training in studies for

which the army and navy have vital needs. Graduates of the program will serve as specialists, technicians, and officers in the armed forces.

RESTRICTED FEED WHEAT SALES

Wheat sold by the Commodity Credit Corporation to feed mixers may be used only in making feeds for dairy cows and laying hens, the War Food Administration has announced.

WFA GIVES FEEDING SUGGESTIONS

To make the nation's supply of livestock feed produce the maximum amount of food, the War Food Administration says hogs should be marketed at lighter weights than during the past two years and 1944 spring farrowing should be held substantially below that of last spring. These measures will be necessary, WFA says, if livestock numbers and feed supply are to be held in balance. WFA urges very best use of roughage and pasture for sheep and cattle. In general, W. F. A. points out, if feeders hold down the weight to which they feed their meat animals, they'll get maximum output of meat per pound of feed used. To conserve feed, WFA recommends heavy culling of range herds.

FARM LABOR SITUATION HELPED

Three hundred thousand more men of military age were put to work on farms during the first six

months of this year than in the same months of 1942, because of draft deferment and other measures taken to conserve agricultural labor. This number was sufficient to offset net losses of workers of military age from farms during the last half of 1942, according to the department of agriculture.

REPORTS OF WAR AGAINST INFLATION

Prices in the United States advanced only 12 per cent in the first 19 months of the present war compared to 29.5 per cent in the same period in the first world war, Judge Fred M. Vinson, Director of Economic Stabilization, reported on the first anniversary of the Stabilization Act. "The war against rising prices has been a good example of democracy in action," Judge Vinson declared. "It has not been entirely free from selfishness and pettiness and difficulties of many kinds—perhaps no struggle ever is." Credit for the achievement, he said, goes "to the workers who have abided by the little steel formula; to the farmers who have not needed the incentive of the prices witnessed during the last war to break all production records; to the thousands of businessmen, small and large, who have helped hold prices down; and to the American housewife for her cooperation with rationing and price control."

HELPS CLARIFY HOG CEILING

The word "municipality," insofar as used by OPA in setting ceiling prices on live hogs in various terminal and interior markets, include also the hog markets in trade centers immediately adjacent to those cities. On October 4, OPA set ceiling prices on live hogs in markets throughout the country, each price based on geographical location and type of selling place, but all prices hinged upon a ceiling of \$14.75 a hundred in Chicago. In the U. S., live hogs produce the heaviest meat tonnage and contribute more to farm income than any other meat animal, OPA pointed out.

USED EGG CASE CEILINGS HIGHER

To encourage the gathering and reconditioning of used egg cases for the handling of this year's forecast record egg crop of 60 billion eggs, OPA has increased the ceiling prices on used egg crates. The new ceilings, effective Monday, October 11, give the men who collect used cases for reconditioning a spread of 7 cents rather than 5 cents between

the maximum prices they must pay "emptiers" and top prices at which they may sell to reconditioners. This extra 2 cents is expected to encourage gathering of empty cases from retail grocers, dairy stores, neighborhood bakeries, and other small "emptiers." New ceilings also give reconditioners a spread of 10 cents for reconditioning used cases.

BROOMS TO COST MORE

Consumers will pay about six cents more for household brooms made wholly or partly of broom corn, because of a recent OPA order. This increase was granted to reflect established ceiling prices for broom corn.

GALES TO GET BOBBIE PINS

Twice as many bobbie pins and hairpins, "necessary feminine items," will be produced during 1944 as at present, under a recent WPA action.

GERMANY FAR FROM "COLLAPSE"

The German Army has nearly three times as many combat divisions in the field today as there were when the attack on Poland began four years ago, Major General George V. Armstrong, Assistant Chief of Staff G-2 (Military Intelligence) declared recently. Discounting any likelihood of an early collapse of either Germany or Japan, general Strong disclosed that the Germans had replaced the 20 divisions lost at Stalingrad last winter, and that the German Luftwaffe was larger now than in 1939. He said also that the weapons the Germans are making are in some cases better than any which the United Nations have.

HELP FARMERS GET TRUCK PARTS

Farmers unable to get needed parts for trucks can get help by taking the matter to the nearest Office of Defense Transportation Office. The ODT has 142 District Offices throughout the country, each with a maintenance specialist and a special maintenance advisory committee on which are garage and service men, dealers and parts suppliers with a special duty of helping find needed parts.

ONE QUESTION QUIZ

Q. Why are point values so high on canned pineapple, vacuum-packed whole kernel corn, tomato catsup, and other items?

A. OPA says that the point values of each item is figured on the basis of its supply and the amount that can be moved into consumption

No, Not Gable

His 36-foot patrol boat was sunk by a Jap cruiser and his five mates were machine gunned to death in the Solomons, but Coast Guard Coxswain Robert J. Canavan reached safety after swimming 19 hours.

from month to month without draining the supply to too low a level. Any item which moves faster than its scheduled movement is increased in point value. If it moves below schedule the point value is lowered.

"A young lady who used to live next door to us," writes the editor of The Postage Stamp, "is out in Montana helping to instruct the Indians in grammar. We've heard from her recently, and she was pretty discouraged up until the other day. The only really loyal students she has are Mr. and Mrs. Bear-Don't-Walk. The others are continually bolting classes. She didn't think she was getting any place even with the dogged Bear-Don't-Walks, until she learned that this family has just applied to the Indian Agent to change its name to Bear-Don't-Walk."

Canyon Air News

Here is the gang from the Pilot House again, and we intend to start the column right off by telling you that the personnel at the airport did their part in the Third War Loan by buying thousands and thousands of dollars worth of bonds. Every single person employed here bought at least one extra bond.

Mr. and Mrs. John C. Hogan have added another member to their household. This time it is a son who goes by the name of Frankie Decian.

Our new ground instruction room is almost completed and with the completion of it we will have an extra office with all new and modern furniture. This will be a great improvement as most of the instructors out here just can't take the weather Texas offers and have to run in to warm after every flight.

You have probably noticed that a certain big (and I do mean big) 1931 Plymouth car is not decorating the streets of Canyon any more. The reason for this (as some people would say) is the owner, Bill Harrison, decided to become civilized and bought himself a 1936 Ford. A great improvement, I must say.

Well, folks, that will have to do for the time being, so until this time next week—so long.

At a party in England, the headmaster of a local school felt that he had partaken rather freely of champagne; he determined to be careful and avoid showing any of the usual signs of tipsiness.

When they rose from the table someone suggested that the hostess exhibit "the latest addition to her family." She agreed and presently the nurse appeared with a dainty pink basket containing twins.

The headmaster was nearest and, mindful of his determination, he steadied himself and said as he gazed into the basket: "What a beautiful baby!"

Overweight Oil Undermines Your Car

Why Lightest grades of oil are made safe for you by changing to Winter OIL-PLATING

Any oil that has been doing its best in your car for a while back, will be badly overweight this Winter. Everything ever said about not being caught with overweight oil goes double today on account of rationing. Your battery has been undercharged, because your car now runs fewer miles per start. Your gasoline has been wasted by the drag of overweight oil. Your engine has been abused because it hasn't been warm steadily enough for ideal lubrication. Your car could approach the end of its rope with any overweight oil apt to become jelly-like. Before Winter causes that, go light.

Whatever you do, change oil for lightness. At the same time though, you can make the whole big change to an OIL-PLATED engine, by getting popular-priced Conoco Nth motor oil—just as light as needed. OIL-PLATING is applied to inner engine surfaces as closely as chrome plating on your bumpers. The "magnet-like" properties of a Conoco Nth synthetic are the basis of OIL-PLATING. No plating would all drain down to the crankcase fast. It can long remain at its topmost point to safeguard the very first starting stroke. And right after that, even the lightest Conoco Nth oil assures an extremely strong normal type of fluid oil film. Oil film and OIL-PLATING are both present to rebuff wear, and that's how your engine can go through a long Winter—and a long War—always using its lightest possible Nth oil economically. Change at Your Mileage Merchant's Conoco station today. Continental Oil Company

Dread Engine Acid is Fought by OIL-PLATING

Normal combustion always leaves acids inside of your engine when it stops.

Formerly it seldom stood idle long. Soon mileage and speed heated your engine enough to oust acids.

But nowadays rationing may force long rests, while corrosive acids gnaw. To combat corrosion, metals are plated. You combat acid corrosion with your engine OIL-PLATED.

"Doesn't look rushed to me"

You CAN SEE when traffic jams a highway or people stand in the aisles of a train.

But you can't tell when Long Distance lines are crowded by looking at a telephone:

When they are, the operator will say—"Please limit your call to 5 minutes. Others are waiting."

That's a mighty good rule for these days. Helps you. Helps us. Helps the war.
